Automorphic forms, Representation theory and Number Theory

On *Thursday, November ,21 2024*

At *13:00 − 15:00*

In *201*

Yotam Hendel + Eitan Sayag (BGU)

will talk about

Nilpotent orbits in Lie algebras + Section 2 of the paper

Abstract: Yotam will give a basic introduction to Nilpotent orbits in Lie algebras. Eitan will use this to introduce the Whittaker models in the generality explained in the paper: generalized Whittaker models.
